

Solving Rational Equations (Single Variable)

scan for answers

Level 1 - Solve rational equations with monomial denominators

Level 2 - Solve rational equations with binomial denominators

Chapter 4: Worksheet 4

Level 1

Solve for the unknown variable in these rational equations.

a) $\frac{2}{6} = \frac{1}{x}$	b)	c)
d) $\frac{1}{3} - \frac{5}{6} = \frac{1}{k}$	e)	f)

Level 2

Solve for the unknown variable in these rational equations.

a) $\frac{3}{n-7} = \frac{3}{2n-1}$	b)
-------------------------------------	----
